Dear Mr. Troost,

I want to take the opportunity to thank you and your companies, Paramount Energy and Commodities SA and your subordinate company, Harvest Commodities for your work and assistance within Ukraine during 2022 and 2023.

From the men, women, and children of Ukraine, we thank you for putting your company and your people at risk in 2022 to be one of the first companies to move grain from Odessa into the grain corridor to support Ukraine farmers and help get this grain to the rest of the world in need.

This type of support is in great need for my country, and I cannot thank you enough for what you have done for our people and your continued support.

Best to you and your family,

**Igor KOPYTIN
